The screenshot shows a web-based E-Learning Management System. At the top, a purple header bar displays the title 'E-Learning Management System' and a welcome message 'Welcome: ADMIN'. A central modal window is open, stating 'This page says' followed by the message 'Successfully Enrolled In Python Programming!' with an 'OK' button. Below the header, a navigation menu includes links for Home, Courses, Instructors, and Contact. The main content area features a heading 'Welcome to Your Learning Dashboard' with a sub-instruction 'Access courses, learn new skills and grow your career.' Below this, a section titled 'Available Courses' lists three courses: 'HTML Basics' (Duration: 4 Weeks, Instructor: Mr. Kumar), 'Python Programming' (Duration: 6 Weeks, Instructor: Ms. Anitha), and 'Machine Learning' (Duration: 8 Weeks, Instructor: Dr. Rao). Each course card includes an 'Enroll' button. Further down, a section titled 'Our Instructors' shows three profiles: 'Mr. Kumar', 'Ms. Anitha', and 'Dr. Rao', each with a small thumbnail. A system status bar at the bottom right indicates the time as '2:22 PM Tuesday 2/24/2023' and the language as 'ENG IN'. A watermark for 'Activate Windows' is visible in the bottom right corner.
